

Anthony Zerpa

FrontEnd & Backend Developer

👤 Profile

I'm a Frontend & Backend developer in love with React + Typescript. I'm not currently working in a project. I've been employed in side-projects like ordereffortless.com, holding multiple Frontend & backend engineering.

In recent years, I have been working at Startups and personal projects.

📁 Experience

Frontend & Backend Developer at Ordereffortless

november 2023 — january 2024

A comprehensive application crafted to optimize restaurant functions and support managers. It provides a unified platform for overseeing a range of restaurant operations, including inventory, staff scheduling, customer interaction, and table reservations.

Tech stack:

React · TailwindCSS · Prisma · NestJS · PostgreSQL · Nginx · RabbitMQ

Tools:

- Design: Figma.
- Code: Visual Code.
- Code handler: Git
- Monitoring platform: Mixpanel

Frontend & Backend Developer at RapidMenu

september 2023 — december 2023

An application designed to optimize restaurant's menus service and get a direct feedback from customers to improve their experience. It provides a simple dashboard where managers can register any template of menus, and show them with a unique link.

Tech stack:

React · TailwindCSS · ExpressJS · PostgreSQL

Tools:

- Design: Figma.
- Code: Visual Code.
- Code handler: Git
